ODP

Features

An Optical Distribution Point (ODP) is a device that supports fiber optic services by terminating drop optic cables and sharing an optical core with customers. ODPs are used in Fiber to the Home (FTTH) networks and have several functions

Aplication

- Telecommunication subscriber loop
- Fiber to the home (FTTH)
- LAN/WAN

ODP 8 CORE

Specification

Part Number	IR-ODP-8-SC
Type	8 core
Size	300mm x 220mm x 80mm
High Quality Product	ABS Material - White Color

ODP 16 CORE

Specification

Part Number	IR-ODP-24-SC
Type	16 core
Size	300mm x 245mm x 100mm
High Quality Product	ABS Material - White Color

ODP 24 CORE

Specification

Part Number	IR-ODP-24-SC
Type	24 core
Size	350mm x 270mm x 120mm
High Quality Product	ABS Material - White Color

ODP 48 CORE

Specification

Part Number	IR-ODP-48-SC
Type	48 core
Size	360mm x 260mm x 125mm
High Quality Product	ABS Material - White Color
